

HB 1657 IS A CRUSHING BLOW FOR HOMEOWNERS AND SMALL BUSINESSES

HB 1657 hurts homeowners and small business owners much more than big businesses.

Homeowners or small business owners would be left exposed without the benefit of workers' comp insurance if they hire their own contractors.

HB 1657 infringes on the property rights of homeowners and small business owners. It deprives them the right to provide insurance for workers on their property and exposes them to lawsuits.

HB 1657 will void a century of Texas workers' comp law. That won't be blamed on the Supreme Court, but the Texas Legislature.

Protect property rights. Oppose HB 1657.
